DETAILED ACTION

Response to Amendment

1. This office action is responsive to the amendment after final filed on 08-28-2003.

Allowable Subject Matter

2. Claims 9, 14-24 are allowed.
3. The following is an examiner's statement of reasons for allowance: With respect to claims 9 and 19, the reason for allowance has been discussed in previous office action. With respect to all other claims, the cited prior arts fail to teach or suggest a high frequency power and low frequency power source connect to the same first electrode, which is different from the substrate support electrode, in conjunction with other limitations in the claims. The closest prior art (Ohmi) teaches to connect two different frequencies at two different electrodes or connect two different frequencies at substrate support.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
